

AVG METAL produces modern metal facades, panels, design profiles and interior metal cladding and exceptional solutions that will enable you to realize your ideas and projects.

Metal facades

Discover metal facades that bring a new dimension to architecture with their design and originality.

Perforated facades

Perforated metal facades are part of the original architecture with a modern design of all buildings.

Facade cassettes

AVG METAL facade cassettes, facade profiles and cladding slats are an integral part of modern construction and original architecture.

Design perforated sheets and panels

Design perforated metal sheets and panels with standard and individual perforations or embossed patterns are exceptional elements for modern architecture.

Facades and tiles with an embossed design

Embossed 3D design brings unrepeatability to projects. Uniqueness is always important for modern architecture.

Metal profiles

AVG METAL offers a wide range of steel, aluminum and stainless steel profiles in the shape of C, L, U, Z, Q for industrial use and construction.

Metal has become part of our identity

CREATIVE VISION

The vision of originality and metal architecture brings uniqueness to projects. The current trend in modern architecture has elevated metal materials to first place. The original architecture of AVG METAL made of metal for exterior and interior creates space for your creative visions.

ENDLESS OPTIONS

AVG METAL offers facade metal profiles, panels, cassettes, lamellas, design profiles and perforated materials for architecture in a unique aesthetic design with endless possibilities of solutions.

INSPIRATIONAL SHAPES

Inspiring shapes and solutions of AVG METAL metal facades and metal cladding for architecture and interior design offer a look that gives elegance, inspiration and its own original identity.

DESIGN AND INDIVIDUAL PERFORATIONS AND 3D EMBOSSED PATTERNS

To be special and have an idea that you can excite everyone who likes uniqueness, this is what AVG METAL design perforations and 3D embossed patterns offer. Create your own perforated design, 3D embossed pattern, individual theme or image perforation and your project will be special.
